

Vacancy: Social Media Editor for *BMJ Simulation and Technology Enhanced Learning*

[*BMJ Simulation and Technology Enhanced Learning*](#) (*BMJ STEL*) has an exciting vacancy for an enthusiastic Social Media Editor to drive the journal's web presence worldwide.

About the role

The journal wishes to recruit a new member of the editorial team to assist in improving the journal's online visibility and reach via social media, by promoting the journal's content as well as helping its core readership to stay up to date with news and developments in the field.

Candidates should be educated to postgraduate level with some knowledge of the journal's broad subject areas. Some experience of science communication and/or digital content management systems such as Twitter, Facebook and WordPress would be preferred, but the main criteria will be enthusiasm for the subject, creativity, and an interest in using new technologies to disseminate scientific research. The role would be ideally suited to an early career researcher or practitioner who is keen to play a part in developing the journal's profile.

The Social Media Editor will report directly to the Editor-in-Chief, Professor Nick Sevdalis, and will be expected to manage all aspects of the journal's social media presence online. The role involves regular interaction with the editorial and publishing teams and occasional participation in the journal's editorial meetings (either in person or remotely by telephone or videoconference). This is an unpaid position, but full training and support will be provided by BMJ's in-house marketing communications team, and you will receive complimentary access to *BMJ STEL*. The appointment will be for two years in the first instance.

About *BMJ STEL*

The journal is published by BMJ in partnership with [ASPiH](#), and focuses on the use of simulation and innovative technology for professionals in all areas of health and social care education, workforce development and quality of care. The journal seeks to contribute to research, innovation and knowledge translation for practitioners, teachers, students and leaders in all health and social care professions who wish to improve clinical outcomes, patient experience and safety. More information can be found at <http://stel.bmj.com>.

How to apply

Please send your CV and a covering letter outlining your suitability for the role and how you think the use of social media can benefit a journal. For further information about the role, or to apply, please contact Henry Spilberg, Associate Publisher. Email hspilberg@bmj.com, phone +44 (0)20 7383 6057.

The closing date for applications is **21 March 2018**. Interviews will be conducted at BMA House in London or by teleconference in April 2018.
